STATE CENTRAL COMMITTEE PLANS ACTIVE CAMPAIGN

The Democratic State Central and Executive Committees met in Louisville, Wednesday, with every member present in person or by proxy, and with all having the keenest interest in the forthcoming campaign. Judge Hardin, Chairman, was authorized to appoint a special committee of seven to continue the work begun by the Administrative Committee before the State Convention, which ended when the Convention met on May 4th. All approved the work which that Committee had done and commended the way in which it had brought about within the party such a degree of harmony and united purpose among all Democratic elements of the State, as has not existed for years.

The State Central and Executive Committees expressed their appreciation of the services of Gen. Halderman, whose resignation as National Committeeman took effect April 21, and named to succeed him for the interim between now and the National Convention at San Francisco, Mr. Johnson N. Camden, who had already been elected as National

Committeeman by the State Convention for four years, beginning with the National Convention at San Francisco.

All expressed themselves eager to begin the campaign this fall which, it was confidently felt, would bring success and victory to the Democratic party in Kentucky and the Nation. There will be a preconcert organization in every county, to be made up of the best men and women whose services can be enlisted. The women and the younger men of the party especially will be invited into counsel and urged to exert their talents to bring about perfect and complete solidarity, which Democracy must have to win, and having cannot lose.

R. O. T. C. TRAINING OFFERS RARE OPPORTUNITY

University of Kentucky students who are enrolled in the Reserve Officers' Training Corps are offered opportunity to attend the summer training camp at Camp Custer, Michigan, from June 17 to July 24, if they so desire.

The camp is four miles west of Battle Creek, Michigan, in an exceptionally favorable location for summer training; there is an ample supply of good water; an electric lighting system and a laundry have been installed. Amusements include "movies" every night, dances, club rooms, hostess houses of the Red Cross and Y. W. C. A. and Knights of Columbus for recreation. Baseball, tennis, and basketball are provided for. There is a library of 17,000 books; religious services and Bible classes are held and lectures and talks are given by prominent educators.

The purpose of the camp is to enable students to balance their winter indoor life by vigorous outdoor life offered by the camp, where everybody is planning with full experience to attain first balance development.

There will be at Camp Custer about four thousand students from colleges in the Middle West. The entire expense of the camp will be borne by the United States Government. Transportation will be furnished the student from the University to the camp and return. Subsistence during the trip will also be supplied and food at camp will be the same as that in the military academy at West Point.

Extension Telephone Service In the Office

Extension telephones, for connection with your present service in office or home, are now available.

There is still a shortage of switchboard and of cable which prevents the installation of new telephones in some sections of the city, but this does not affect extension telephone service, on existing lines.

Many offices have expanded so that additional extension telephones are needed. The time saved more than pays the small monthly charge.

In the home there is no greater convenience than an extension telephone on the other floor or beside the bed.

Call the manager's office today and arrange for this service.

Does He Live in Our Town?

He will await his turn at the ticket window or in other public places cheerfully; he will stand patiently while the clerk in the store waits on the customers ahead of him. But when the telephone operator takes a few seconds longer than usual to answer his call he swells all up and says the service is "rotten."

He can see that the clerk and the ticket seller are busy, but he cannot see the telephone operator—so he thinks she must be lazy, or "asleep!"

He forgets that others are frequently ahead of him at the telephone switchboard, the same as at the ticket window or in the store; that calls are coming in in rapid succession and must be answered in their turn; that when half a dozen subscribers all call at the same time, they can't all be answered first!
